

Vadim L. Stefanuk
stefanuk@iitp.ru

PhD and DrSc.

**Leading researcher in the Institute for Information Transmission Problems RAS,
Professor of Russian University for People's Friendship,
Vice-President of Russian Association for Artificial Intelligence,
Member of ECCAI (EurAI)**

Some Problems Formulations and Results by V.L.Stefanuk

Collective behavior of learning automata.
Wireless mobile communication.
Axiomatic approach towards Fuzzy Evidence.
Theory of Category methods in AI.
Dynamic Expert Systems.
Conditioning in Natural Language.
Automata behavior in Fuzzy Environment.
Intelligent Transactions in Tutoring.
Semiotic Introspection.
Axiomatics of Markov-Stefanuk chains.
Creative problems and methods in AI.
Measuring of Fuzzy values.

Under 300 publications, including 4 books.
